X-RAY CERTIFICATE SERIES	Principles of Servicing Diagnostic X-Ray Systems (Phase I)																																																																					
	Advanced Radiographic System Maintenance (Phase II)																																																																					
	Advanced Fluoroscopic System Maintenance (Phase III)																																																																					
	Advanced Diagnostic Imaging System Analysis (Phase IV)																																																																					
NETWORKING & DIGITAL INFORMATION	PACS Engineer/Administrator Certification (Phase I)																																																																					
	PACS Engineer/Administrator Certification (Phase II)																																																																					
	PACS Troubleshooting (3 days)																																																																					
	NEW! Intro to Imaging, Radiation Safety and FDA Compliance																																																																					
	NEW! Basics of Networking for Service Engineers																																																																					
MANAGEMENT	C.A.M. (Capital Asset Management)																																																																					
	2.5 Day: Intro to Diagnostic Imaging & PACS: For Managers & Sales Professionals																																																																					
	GE Definium Family: Definium 6000/8000, Discovery XR650/XR656, Octima XR640																																																																					
PRODUCT SPECIFIC	GE Definium 5000																																																																					
	GE Precision 500D R/F																																																																					
	GE Proteus (JEDI) Generator																																																																					
	Philips Bucky Diagnost																																																																					
	NEW! Philips Digital Diagnost																																																																					
	NEW! Siemens Ysio																																																																					
	Shimadzu RADspeed RADspeed Pro																																																																					
	Shimadzu RADspeed Pro Edge																																																																					
	Shimadzu RADspeed F (with Varex DR)																																																																					
	Shimadzu Sonialvision G4																																																																					
	NEW! DR Panels: Canon, Fuji, Konica																																																																					
	GE AMX Portable (V, V+)																																																																					
PORTABLES	GE Optima XR220 AMX Digital and XR200 AMX Portable																																																																					
	Shimadzu MobileDaRt Evolution Portable																																																																					
	Shimadzu MobileDaRt EPK/MX7 Portable																																																																					
	Shimadzu MobileDaRt M38 Portable																																																																					
C-ARM	Multi-Product C-Arm OEC 9800/9900																																																																					
	OEC 9900 C-Arm																																																																					
	Philips BV Pulsara C-Arm																																																																					
	Siemens AXKOM Artis Family (FP)																																																																					
CARDIAC	Shimadzu Trinitas (Basic)																																																																					
	Shimadzu Trinitas (Advanced)																																																																					
	GE Inova/KS Family (2100/3100/4100, 520/530/540)																																																																					
	Philips Allura FD Family (FD10/FC20)																																																																					
	Lorad Multicare Platinum/Breast Dipsy System																																																																					
	Digital Mammography GE ESSENTIAL																																																																					
	Digital Mammography Hologic Selenia																																																																					
WOMEN'S HEALTH	NEW! Digital Mammography Hologic Dimensions 3D Tomo																																																																					
	NEW! Hologic MG Products: Affirm, SecurView R2 Cenova & ATEC Sapphire																																																																					
	NEW! Siemens Inspiration Tomo/Digital Mammography																																																																					
	Multi-Vendor Bone Densitometry																																																																					
ULTRASOUND	NEW! Principles of Servicing Ultrasound Systems (2.5 Days)																																																																					
	NEW! Philips Epiq 5 & Epiq 7 (2.5 Days)																																																																					
	NEW! Philips IU22 & IU33 (2.5 Days)																																																																					
	NEW! GE Logic E9 & Vivid E9 (2.5 Days)																																																																					
	NEW! Siemens S2000 (2.5 Days)																																																																					
CT	Principles of Servicing Computed Tomography Systems (Phase I)																																																																					
	Advanced Computed Tomography System Maintenance (Phase II)																																																																					
	GE BrightSpeed & LightSpeed CT																																																																					
	GE VCT																																																																					
	Philips Brilliance Family																																																																					
NUCLEAR MEDICINE	Principles of Servicing Nuclear Medicine Systems																																																																					
	NEW! Siemens eCam Family																																																																					
MRI	NEW! Principles of Servicing MRI (MRI Phase I)																																																																					
	NEW! Advanced MRI Service (MRI Phase II)																																																																					
CRES CERTIFICATION	CRES Certification Prep																																																																					
EXHIBITS & PRESENTATIONS	MD Expo Apr 10-13					OBA May 17-18					CMBS May 21					AAMI Jun 7-10					CABMET Aug 8-10					NCBA Aug 13-16					CEA Aug 14-16					HBA Aug 15-16					NCE/BA Sep 18-20					BAW Sep 24-28					MDE/epo Oct 17-19					NESCE Oct 20-23					RSNA Dec 1-6					FBS Dec 5-8				

NOTE: Hologic Dimensions and GE 500D are 5 full days. Bucky Diagnost is 4 full days. No return flights before 6 pm.

*Classes Start Tuesday Apr 23
