DR Panels: Canon, Fuji, Konica

This one-week course is tailored for the imaging department engineer responsible for servicing DR systems by multiple OEMs. We'll cover these topics for Canon, Fuji, and Konica flat panels:

- Detector configuration and pairing
- Detector calibration
 - Gain/offset/bad pixel
- Image quality tests
- Maintenance
- Troubleshooting

Course Dates: 11/5/2018 – 11/9/2018
