

Rethink Your Resource.

As part of our commitment to improving the quality of diagnostic imaging service and helping healthcare technology managers provide better health services, RSTI has expanded its equipment, training and support services to provide a single-source solution for managing diagnostic imaging equipment resources.

Expert Training at State-of-the-art Facilities

OEM-trusted service training provider.

- Comprehensive training courses range from basic principles to model-specific
- Fully Engaged Learning™ puts the student at the center of the training experience
- Better-than-OEM quality training

View our course schedule at www.rsti-training.com

Parts and Equipment When You Need Them

One of the industry's largest inventories of OEM diagnostic imaging parts and equipment.

- Parts ID support from expert techs
- Hero Kits for common failure parts
- 3-month parts warranty (extended warranty available for eXchange loyalty members)

Search our inventory at www.rsti-exchange.com

Extended Services and Support

Expert service engineers, techs, and instructors.

- 24/7/365 support
- Installation, de-installation and on-site troubleshooting
- Trusted global partner network for parts and equipment sourcing
