X-RAY CERTIFICATE SERIES	Principles of Servicing Diagnostic X-Ray Systems (Phase 1)																																																													
	Principles of Servicing Diagnostic X-Ray Systems (Phase 1) - eLearning																																																													
	Advanced Radiographic Systems Maintenance (Phase 2)																																																													
	Advanced Digital Imaging Systems Maintenance (Phase 3)																																																													
NETWORKING & DIGITAL INFO	PACS Engineer/Administrator Certification (Phase 1) - eLearning																																																													
	PACS Engineer/Administrator Certification (Phase 2) - eLearning																																																													
	PACS Troubleshooting (3 days) - eLearning																																																													
MANAGEMENT	C.A.M. (Capital Asset Management)																																																													
	Intro to Diagnostic Imaging & PACS For Managers & Sales Professionals																																																													
PRODUCT SPECIFIC	GE Optima/Discovery/Definition DR Family: Optima XR640/XR646, Discovery XR660/XR666, Definition 6000/6000																																																													
	GE Precision 5000 R/F																																																													
	GE Precision 600FP																																																													
	GE Proteus																																																													
	Philips Easy Diagnost Eleva																																																													
	Philips Digital & Busby Diagnost																																																													
	Siemens Ysio																																																													
	Siemens AXIOM Luminos TF																																																													
	Siemens Luminos Agile																																																													
	Shimadzu RADspeed/RADspeed Pro																																																													
PORTABLES	Private Practice X-Ray Systems (CPI CMP200 & Quantum Odyssey HF)																																																													
	Injector Systems																																																													
	GE AMX Portable (IV, IV+)																																																													
	GE Optima XR200/XR220/XR240, & Brivo XR285 Digital Portables																																																													
C-ARMS	Shimadzu MobileDaR Evolution Portables (Evolution EFX, MX7)																																																													
	Canon RadPro Digital																																																													
	Philips MobileDiagnost Digital																																																													
CARDIAC	Fuji FDR Go & Go Plus																																																													
	Multi-Product C-Arm OEC 9800/9900																																																													
	OEC 9900 C-Arm																																																													
WOMEN'S HEALTH	OEC Elite (CFD) Flat Panel C-Arm																																																													
	Philips Veradius C-Arm																																																													
	Philips BV Pulsara C-Arm																																																													
ULTRASOUND	GE Innova/iGSS/Optima Family (21/31/4100, 3XX/6XX/6XX)																																																													
	Philips Allura FD Family (FD10/FD20)																																																													
	Lorad Multicare Platinum Breast Biopsy System																																																													
	GE Digital Mammography (1-week ESSENTIAL only)																																																													
CT	Hologic Selenia Digital Mammography																																																													
	Hologic Dimensions 3D Tomo Digital Mammography																																																													
	Hologic MG Products: Affirm, SecurView, R2, ATEC Sapphire																																																													
	Siemens Inspiration or Novation																																																													
MRI	Multi-Vendor Bone Densitometry																																																													
	Principles of Servicing US Systems (2.5 days)																																																													
	Philips Epiq 5 & Epiq 7 (2.5 days)																																																													
	Philips IU22/IE33 (2.5 days)																																																													
NUCLEAR MEDICINE	GE Logiq E9, Vivid E9 (2.5 days)																																																													
	Principles of Servicing Multivendor CT Systems																																																													
	GE Optima, Brivo, VCT, LS, BS CT Family																																																													
	GE Revolution & Discovery CT																																																													
CRES CERTIFICATION	Philips Brilliance Family																																																													
	Siemens Sensation Family																																																													
	Siemens Definition Family																																																													
Servicing Multivendor MRI Systems																																																														
Siemens MRI Family (Aera, Skyra, Espree, Avanto)																																																														
GE Excite & GEMS MRI Family (X)																																																														
Principles of Servicing Nuclear Medicine Systems																																																														
Siemens Symbia Family																																																														
CRES Certification Prep
